Dear Emery Family Members:

Thank you for your letter which arrived yesterday regarding Cook's Butte Park. I am responding on behalf of the three members of the City Council to whom you addressed your correspondence, as well the Parks Director and Natural Resources Coordinator.

All of us appreciate the foresight and generosity of your family in providing this very special property to Oswegans of past, current and future generations. It is a marvelous community asset and those of us involved in public life in Lake Oswego feel a special responsibility as the stewards of this gift.

The exploration of placing the public safety 800-megahertz tower at this site has been dropped. The representatives of Clackamas County, the lead agency for this project, are pursuing other alternatives.

We appreciate your advocacy for the protection of this special asset and please accept our appreciation of your family's contribution to this community.

Very truly yours,

Douglas J. Schmitz  
City Manager

C: Judie Hammerstad, Mayor  
Gay Graham, City Councilor  
Lynn Peterson, City Councilor  
Lisa Hamerlynck, Natural Resources Coordinator  
Kim Gilmer, Parks and Recreation Director
